/s/Lyndon B. Johnson, Chair

Mr. Johnson opened up the floor for Citizens Comments.

Ms. Janet Parker submitted the following comment:

Dear Caddo Parish Commission,

The Arc Caddo-Bossier's Goldman School and Child Development Center is the only childcare program in our region that offers services to children with severe disabilities. I stress that we are the only ones. We have never in our long history turned away a child due to his or her disabilities. We serve little ones who are tube-fed, or on oxygen, or are seizure-prone or have other unique and fragile conditions. We offer an exceptional low ratio of teacher to child, and we provide staff that have very advanced training and experience. We serve children aged 8 weeks to 5 years. The ratio is 3 children to 1 teacher for those under 12 months of age, and a ratio of 4 children to one teacher for the children aged 1 year to 5 years. Our teachers must, as a minimum, have Child Development Accreditation (CDA) and an additional Ancillary certification provided by the Louisiana Department of Education. Goldman School and Child Development Center has been nationally recognized for its progressive inclusion model, which combines typically developing children and children with severe disabilities. We receive no state or federal funding apart from the small percentage of children who participate in our Early Head Start program, which serves only about 1/5 of our census. Each year The Arc must raise about \$16,000 per child in order to provide our exceptional program. The pandemic closed our school altogether for a solid eight weeks. The loss of parents' fees for this period amounts to over \$ 82,600. We have reopened and are serving the maximum allowed by the department of education. We will indeed be grateful for your thoughtful consideration both of the unduplicated-yet-essential services the Goldman School and Child Development Center provides, as well as the severity of the fiscal impact we have experienced. We desperately need to be awarded the maximum amount allowed to continue supporting families and children in our community. Sincerely, Janet Parker Executive Director, The Arc Caddo-Bossier

He said that the project is to show students how to grow their own food, prepare it, and nourish themselves within this community. They will also be managing the MLK Community Garden. He asked that the Committee fund them at \$55,000.

Mr. Burrell wanted to know if this was for the entire school system. Mr. Young explained that they work with about 15-20 schools, but would like to expand that and add additional schools.

Mr. Burrell then wanted to know if they receive money from the State. Mr. Young said that he does not know the details of their other funding.

Mr. Johnson wanted to know what happened to 4H. He said that 4H was a program in the school system when he was growing up that taught these types of things. Mr. Johnson further explained that his only issue with this is that it focuses primarily on the school systems. He thought it was going to be community gardens within the Parish.

Mr. Johnson wanted to know if the gardens were located on school property. Mr. Young said that there are gardens located on school property, but some of them would be in the Parish like the

MLK Community Garden. Mr. Johnson pointed out that garden goes through Parks & Recreation.

Attorney Frazier mentioned that she has not had the chance to review this application. She also cautioned the Commission that these funds cannot be used to improve school board property.

Mr. Atkins wanted to know if there were any restrictions on funding salaries directly of NGOs. Attorney Frazier said that there are restrictions, unless they are specifically working on the grant program versus their general allocation. The part that is allocated to the grant program can be paid by the grant, but not any of the other salary.

Mr. Atkins then wanted to know if there would be an issue for the Commission to provide financial support for a coordinator for the program that is being proposed. Attorney Frazier said that if the program is legal, and if they are not working in any other capacity for Shreveport Green. If they are working with other parts of Shreveport Green, that part cannot be paid for with Parish funds. The person would need to be a contract person, and not an employee of Shreveport Green.

Mr. Burrell suggested that additional information be provided on this program due to the number of questions. Mr. Young asked that the Committee write down their questions so that he can provide them to Shreveport Green.

Mr. Hopkins suggested that the Commission contact the School Board, LSU Ag Center, Shreveport Green, the Master Gardener Program, etc. to come together and have further discussions on this. He said that he is in support of the program and funding it at \$50,000, but he would like it to be done right because it is beneficial for the whole Parish. Mr. Cawthorne agreed.
